

# Memory for short stories

## Volunteers wanted!

We are looking for participants between **65 and 85 years old** for a study that investigates how ageing affects how we understand and remember short stories.

The study involves **one meeting**, lasting **two and a half hours**. We will ask you to listen to short stories describing real life situations and to remember them later.

You will be able to rest during breaks.

You can choose whether you prefer to carry out this study at home or at the University of Sussex.

We will reimburse you for your time and your travel expenses.

**Join us between October 2021 and September 2022**

For more information, please contact:

**Dr Flavia De Luca**
