

Everyone Counts

Increasing research opportunities

NHS

Sussex Partnership
NHS Foundation Trust

We want to make sure that everyone who uses our mental health services has the opportunity to hear about mental health and dementia research studies within Sussex Partnership.

Research is important because it helps us develop better care.

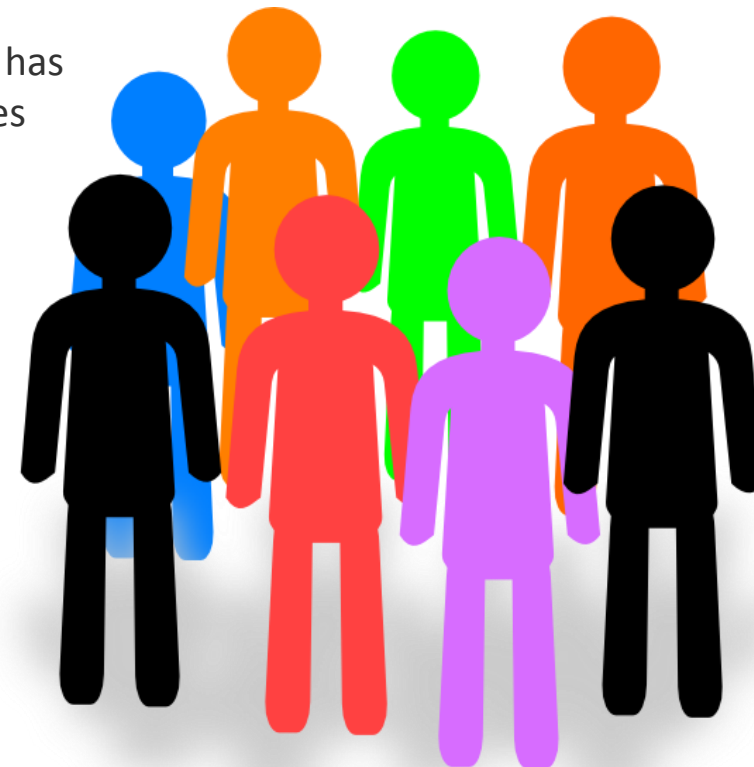

So that we can make sure all patients have an equal chance of hearing about research, we would like to send you relevant study information from time to time. **You are under NO obligation to take part in a research study and saying 'no' will not affect your clinical care.**

If you don't want to hear about research you can let us know.

For more information see our website here:

www.sussexpartnership.nhs.uk/getting-involved-research-research

You can change your mind about being contacted about research at any time.

Please contact us if you have any queries
