

**Sussex Partnership**  
NHS Foundation Trust

A member of:  
Association of UK University Hospitals

**Our vision & mission:**  
(what we want to achieve)

**Vision:**

**To improve the quality of life for the communities we serve.**

**Mission:**

To champion the rights of people with mental health problems and learning disabilities. We will work with our partners to bring health and care services together for their benefit.

**Delivery**

(what our vision and mission mean in practice)

**People** feel valued, supported and cared for

**Prevention** of ill health will promote community wellbeing

**Partnerships** will provide people with services to help them thrive

**Outcomes**

(what difference this will make to people)

**We will:**

- › improve **patient, family and carer experience**, participation in their care and access to services (particularly crisis care)
- › improve **staff experience and wellbeing**, which includes making sure they are part of a team with clear objectives and have access to regular development
- › develop our **workforce** to meet the needs of our communities

**We will:**

- › help protect **children and young people** against later adversity and mental ill health
- › target our use of resources as a health and social care system to **get help to people earlier and integrate physical and emotional wellbeing**
- › work with our communities on **suicide prevention**

**We will:**

- › ensure people who use our services and their families are treated as equal partners with staff (through **Triangle of Care**) in planning and providing care
- › play a leading role in bringing together the provision of **health, housing, social care, employment and education** to give people more rounded support
- › **work with our commissioners** to improve the way services are planned, commissioned, designed and provided

**Supported by:**

- › Our **culture, values and behaviour** particularly in relation to how we promote compassion, inclusion, innovation and learning
- › **Effective and efficient use of resources** including the use of ground breaking research to develop our workforce and introduce new treatments
